Career Objective

Dynamic and innovative web developer with 3.5 years of hands-on experience in building robust and scalable web applications using React and Node.js. Seeking a challenging role where I can continue to expand my skills, collaborate with talented teams, and contribute to the success of innovative projects.

Education & Certifications

Bachelor of Engineering in Computer Science

Mumbai University

Graduated : June 2019

Skills

Frontend

Html, Css, React, Nextjs, Ionic, Redux, Next UI, TypeScript

Design Tools

Figma, Zeplin

Backend

NodeJs, ExpressJs, MySQL, JavaScript

Version Control

Git, Github, Gitflow

PROFESSIONAL EXPERIENCE

Vernost Marketing Technology Solutions Pvt. Ltd.

Software Engineer

Oct 2020 - Present

- Developed responsive web applications using NextJs, enhancing user engagement and retention.
- Optimized application performance through code refactoring, performance profiling, and caching strategies, significantly improving page load times and responsiveness.
- Conducted code reviews and provided constructive feedback to team members to ensure code quality, maintainability, and scalability.

Trainee Software Engineer

- Implemented user interfaces and interactive features using HTML5, CSS3, and JavaScript, adhering to best practices and industry standards.
- Integrated APIs and services to enhance application functionality and streamline data processing.

Projects

Indigo (Hotel)

Frontend Lead

- Led the development of a comprehensive hotel booking platform aimed at providing travelers with a seamless and user-friendly interface for hotel booking experience.
- Ensured adherence to best practices and coding standards to maintain code quality.
- **Technologies Used:**NextJs, Figma, Css, Javascript, Html, GitFlow

Sbi Cards (Flights)

Senior Frontend Engineer

- Developed an intuitive flight search interface that allows users to search for flights based on destination, dates, preferred airlines.
- Implemented real-time availability checks and reservation functionalities to enable users to book flights seamlessly.
- **Technologies Used:**NextJs, Zeplin, Css, Javascript, Html, GitFlow

Workfitt

Full Stack Developer

- Designed and executed a full-stack freelance project, delivering a user-friendly platform to streamline healthcare processes and enhance patient monitoring.
- Key features include personalized prescription generation, automated audio exercise tracking, doctor login, admin panel for component management, and API integration for seamless communication between front-end and back-end systems.
- **Technologies Used:**Ionic React, NodeJs, ReactJs, Css, Javascript, MySQL

Tata Neu (Hotels)

Backend Engineer

- Designed and implemented the backend architecture and services, including APIs, databases, and business logic components, to support the functionality and requirements of the hotel booking platform.
- Collaborated with cross-functional teams to deliver new features and enhancements to the platform.
- **Technologies Used:**NodeJs, MySQL, ExpressJs, Javascript, GitFlow

Vms Component Library

Frontend Engineer

- Developed a component library, organizing components into categories such as buttons, forms, cards, and modals.
- Implemented a scalable and extensible structure to accommodate future expansion and customization.
- The component library serves as a centralized repository of UI elements, facilitating efficiency in front-end development.
- **Technologies Used:**NextJs, Zeplin, Css, Javascript, Html, GitFlow
